

FEATURES

LET YOUR INTUITION MOVE YOU

Today's workplace is flexible and agile. So is Sol. Comfortably accommodating your sitting—and work—style, thanks to a synchro mechanism, seat slider, adjustable arms and height-adjustable lumbar, Sol encourages movement for alertness and a healthy posture shadows your every move.

SMART DESIGN

Sol doesn't look like the average task chair because it *isn't* the average task chair. Sol seamlessly integrates technology and supports all the postures we assume as we read on tablets, text on phones, video chat or draw. A slim layer of upholstery or mesh cushions the back while allowing easy movement. And the sweeping aluminum flourish is instantly iconic.

PERFORMANCE WITH A TWIST

Sol uses responsive pivot-back technology for total support—and natural freedom—no matter how much you move. Distinctly reactive to the user, the pivoting back enables you to comfortably shift gears while you work by mirroring natural changes of posture. It delivers flexibility, letting you settle in or sit up, or even move side-to-side.

JUST YOUR STYLE

Customization comes easy with Sol. From mesh and upholstered backs, polished and silver frame finishes, a variety of mesh colors and countless textiles—the choices are endless. Sol's broad array of options enable easy integration into any environment.

INSPIRED ENGINEERING

Sol's pivot-back technology enables torso rotation and side-to-side movement, making each sit an experience that's catered to—and unique to—each user. Its tapered back allows you to freely move your shoulders and arms to change postures or collaborate with others.
